

5.56X45 MM NATO

Made by Windham Weaponry, the 5.56x45mm NATO ammunition is designed for consistent accuracy and reliability. Offered in M193 Ball 55GR and M855 (SS109) Ball 62GR, each round features a lead core full metal jacket, brass case, non-corrosive Boxer primer, and double base propellant. The M193 delivers a velocity of 874 m/s at 100 meters, while the M855 reaches 846 m/s, ensuring dependable performance shot after shot.

“Quality goes in before ammunition goes out.”
